

# THE YEOMAN SHIELD GUIDE TO EDUCATION FACILITIES MANAGEMENT

IMPROVE THE LOOK OF YOUR BUILDINGS  
REDUCE DECORATION COSTS  
MAKE CLEANING EASIER

All education estates are under pressure to maintain aspirational learning environments which are easy to clean, maintain and service while demonstrating best value and maximising budgets.

Yeoman Shield have been working to support schools, colleges and universities for over 50 years and have developed a series of core education products that solve your day to day maintenance and lifecycle problems.

## WALL PROTECTION PANELS

Usually fitted from skirting to mid-height level, the Yeoman Shield Wall Protection Panels can be formed to accommodate curves and radii, making them a perfect alternative to column protection.

Available in a choice of two textured finishes and a satin or gloss smooth with over 48 colours held in stock we can complement or contrast any colour scheme. Once installed, you will no longer need to paint the high traffic portion of your corridor walls.

Our directly employed team of fitters are available to fit our wall protection solutions, or we can provide our products with comprehensive fitting instructions for your site team to fit.

### DID YOU KNOW?

You can add a high-definition full colour printed panel to the upper portion of the wall, giving 100% coverage and protection as well as creating an informative and stimulating environment.

## WALL PROTECTION STRIPS

For lower traffic spaces such as receptions, offices and classrooms which still require protection from people, chairs, desks and wheeled equipment, we recommend our wall protection strips.

Our protection strip is extruded in lengths of 3.5m, and is available 200mm, 125mm or 75mm wide and 3mm thick options, offering a very cost-effective protection option.

### DID YOU KNOW?

The rigid PVCu material that Yeoman Shield products are manufactured from is easy to clean, does not promote the growth of bacteria or mould and is not affected by the use of commercial cleaners, assisting in the upkeep of high hygiene standards.

## CORNER PROTECTION

With day-to-day traffic over time, corners on corridors and classrooms quickly get chipped and damaged. Adding our simple yet effective Corner Protection Angles can give your corridors a real lift. Fitted quickly by your maintenance team using pre-applied adhesive tape, we can supply in a wide range of colours and sizes.

### DID YOU KNOW?

Corner Protection can be used as stand alone or combined with our Wall Protection Strip to improve the durability of walls and add a complementary or contrasting colour to rooms and corridors.

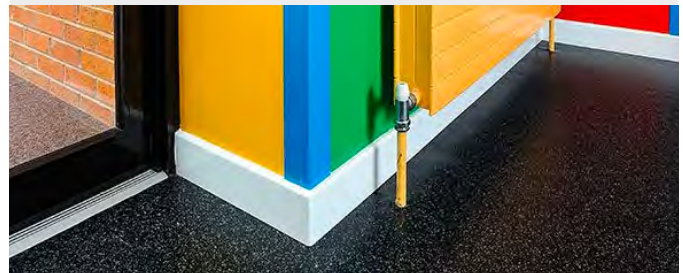

## SKIRTING

Fitting a PVCu skirting will eliminate the need for repainting – forever!

Available in a choice of a flat back easy to install skirting in 2 sizes or an extruded option complete with a solid core which works as an alternative to traditional skirting on new build projects.

### DID YOU KNOW?

Installing wall protection products can break the cycle of constant repair and redecoration helping to reduce future maintenance costs.

## COMPLETE DOOR PROTECTION SYSTEM

Doors in a busy education environment are on the frontline when it comes to impact damage caused by footfall and the movement of equipment. Not only looking unsightly but where fire doors are concerned this type of damage can cause a door to malfunction in the event of a fire.

Yeoman Shield offers a solution with their complete door protection system consisting of Door Edge Protectors, Door Protection Panels and PVCu clad Glazing Bead units to shield from the daily wear and tear.

### DID YOU KNOW?

All Yeoman Shield door protection products are fully fire rated and tested to the current standards required. When fitted these items will not affect the integrity of the fire door.
